SUBJECT INDEX

Abuse physical or sexual, impact on chronic depression in adolescent mothers, 378-387
Access to health care services, system coordination and (Editorial), 269-271 to research subjects, in school-based research, 14-21
Acculturation issues
  for Hispanic migrant children, 143-144
Acquired immunodeficiency syndrome (AIDS)
  stress responses of child care providers to children with, 356-363
Activity, physical
  measurement of, in children, 148-156
Adolescents
  adjustment to cystic fibrosis, effect of peer relationships on, 175-182
  appraisal of, in Healthy People 2000, 47
  dangers of rock concerts (Editorial), 341-342
  impact of physical or sexual abuse on chronic depression in adolescent mothers, 378-387
  middle, self-care practices of, and sociocultural, influences, 30-35
  prevention of violence and pregnancy in, 3 (Letter)
  smoking cessation among, 299-306
  with diabetes, compliance of, 260-267
Advocacy
  building skills for, 323-325
    communication with policy makers, 324-325
    identification of child health issues, 324
    networking and coalition building, 324
  parental, for Mexican-American children with chronic conditions, 89-98
Alcohol recovery process
  parenting an infant during, 82-88
Appreciation
  in parent satisfaction survey, 375
Assent, see Consent
Asthma, pediatric
  clinical management update, 189-190

Behaviors, health
  television's effect on children's, 272-281
Bioethics, pediatric
  theories of, 37
Black women
  low-income, explaining infant feeding style of, 73-81
Body composition
  measuring physical fitness in children, 153
Book and media reviews

Breast-feeding
  infant feeding style of low-income black women, 73-81
Burden, caregiver
  concept analysis of, 398-407

Cancer, childhood
  hereditary, ethical and psychosocial implications, 217-225
    basic concepts, 217-219
    familial adenomatous polyposis, 221-223
    genetic testing for, 223-224
    multiple endocrine neoplasia type 2, 220-221
    retinoblastoma, 219-220
  social support experienced by siblings of children with, 313-322

Cardiorespiratory endurance measures
of physical fitness in children, 153
Cardiovascular health promotion
effect on health behaviors of elementary school children, 343-355
Caregiver burden
concept analysis of, 398-407
Caring
in parent satisfaction survey, 375
Census, U.S.
counting children, 119
Child care providers
stress responses of, to behaviors of children with HIV/AIDS, 356-363
Child health policy (column)
building skills for child advocacy, 323-325
communication with policy makers, 324-325
identifying child health issues, 324
networking and coalition building, 324
Healthy People 2000/2010
health appraisal, by life stages, 47
objectives for 2010, 48
utilization of objectives of, 48
impact of smoking on children's health, new initiatives, 388-390
mental health policy, 115-118
pediatric asthma, clinical management update, 189-190
physical activity and fitness of U.S. children, 250-252
Child in the Community (column)
counting children, in Census, 119
forming coalitions to help children, 326-327
growing up with a chronic illness, 253
introduction to, 49
serving children caught in cycle of crime and violence, 191-192
supporting children, 391-392
Child rearing practices
in the New Independent States (former Soviet Union), 364-372
historical issues affecting, 364-366
implications for nurses, 368-371
practices, 366-368
Chronic conditions, children with
asthma, clinical management update, 189-190
cystic fibrosis, adjustment to in adolescence, 175-182
diabetes, compliance of adolescents with, 260-267
growing up with, and the human spirit, 253
linear scleroderma, Neuman nursing perspective on, 168-174
Chronic conditions, children with (*Continued*)
Mexican-American, parental encouragement, protection, and advocacy for, 89-98
mitochondrial diseases, 232-241
Kearns-Sayre syndrome, 236-237
Leigh syndrome, 237-238
Wolfram syndrome, 238
Cleft lip and palate
genetics of, 242-249
cause, 245-246
classification, 243-244
fetal surgery, 247
genetic counseling and prenatal diagnosis, 246-247
incidence, 244
inheritance, 244-245
nursing implications, 247-248
pathophysiology, 244
prenatal development, 242-243
Communication
in parent satisfaction survey, 375
Community settings
pediatric nursing practice in, *see* Child in the Community column
Compliance
of adolescents with diabetes, 260-266
Concept analysis
of caregiver burden, 398-407
of social support as experienced by siblings of children with cancer, 313-322
Congenital heart disease
and children's concepts of their internal bodies, 292-298
Consent
in school-based research, problems with, 14-21
obtaining child assent for research, 99-104
Coping
children's, with surgery, 307-312
with hospitalization, by young children and their parents, 5-6
Culturally competent care
child rearing in the New Independent States (former Soviet Union), 365-372
migrant Hispanic children's perceptions about health, 137-147
Cystic fibrosis
adjustment to during adolescence, peer relationships and, 175-182
genetic testing for, 208-209

Depression
impact of physical or sexual abuse on, in adolescent mothers, 378-387

Developmental problems
in prematurely born children, and interactions with mothers, 157-167
Diabetes
compliance of adolescents with, 260-267
Diet
effect of television on children's, 275-276
Dissent
by potential child research subjects, 101-102
Drug recovery process
parenting an infant during, 82-88

Education
health
for children and families, challenges of (Editorial), 61-62
nursing
in Istanbul, Turkey, 183-188
pediatric sedation, in evidence-based practice, 127-130
Elementary school children
effect of cardiovascular health promotion on health behaviors of, 343-355
see also School-age children
Empowerment
of children and families, via health education (Editorial), 61-62
of nurses, and ethics of care, 193-194
Encouragement
parental, for Mexican-American children with chronic conditions, 89-98
Environmental influences
on health of Hispanic migrant children, 144
Ethical issues
for pediatric mental health nurses, 36-46
genetic testing for hereditary cancers in children, 217-225
genome research, impact on children and their families, 207-211
in nursing and genetics, international agenda for, 212-216
advantages and disadvantages of genetic information, 213-214
commercialization of genetic information and tissues, 214-215
Ethics
in pediatric nursing, international perspective, 56-59
learning ethics in genetics and nursing, narrative pedagogy and grounding of values, 226-231
of care, and empowerment of nurses, 193-194
Evidence-based practice
pediatric sedation and, 127-130
Exercise
measurement of physical activity and fitness in children, 148-156

Familial adenomatous polyposis
genetic testing for, ethical and psychosocial implications, 221-223
Families
genome research, impact on children and, 207-211
health education for, challenges of (Editorial), 61-62
Mexican-American, with children with chronic conditions, 89-98
social support for siblings of children with cancer, 313-322
Feeding, of infants
explaining feeding style of low-income black women, 73-81
Feminism
in ethics of care and empowerment of nurses, 193-194
perspective on children's voices, 24
Fitness, physical
measurement of, in children, 152-154
Flexibility measures
and physical fitness in children, 153-154
Formula, infant
explaining infant feeding style of low-income black women, 73-81
Foster care
nursing care for children and youth in, 1-2 (Editorial)
Fragile X syndrome
genetic testing for, 208

Genetic testing
for cancer susceptibility, 209-210, 223-224
for cystic fibrosis, 208-209
for familial adenomatous polyposis, 221-223
for fragile X syndrome, 208
for Huntington disease, 209
for multiple endocrine neoplasia, type 2, 220-221
for retinoblastoma, 219-220
Genetics (special issue)
curing children, issues in (Editorial), 205-206
genome research, impact on children and their families, 207-211
hereditary cancers in children, ethical and psychosocial aspects, 217-225

Genetics (special issue) (*Continued*)
international agenda for ethics in nursing and, 212-216
learning ethics in nursing and, using narrative pedagogy and grounding of values, 226-231
mitochondrial disease, 232-241
of cleft lip and palate, 242-249
Genome research
impact on children and their families, 207-211
gene discovery and the future, 210-211
predictive genetic testing, 209-210
testing for diagnosis and carrier status, 208-209
Genomics
potential issues in (Editorial), 205-206
Grounding of values
and narrative pedagogy, for learning ethics in nursing and genetics, 226-231

Hazing, of children, 391-392
Health
children's understanding of, 138-139
concept of, 137-138
Hispanic migrant children's perceptions about their, 137-147
Health behaviors
cardiovascular health promotion's effect on children's, 343-355
television's effect on children's, 272-281
Health education
for children and parents, challenges of (Editorial), 61-62
Healthy People 2000
appraisal of, by life stages, 47
objectives for 2010, 48
utilization of objectives of, 48
Healthy People 2010
new initiatives on children's smoking, 388-390
Heart disease, congenital
and children's concepts of their internal bodies, 292-298
Hereditary cancers
in children, ethical and psychosocial implications, 217-225
basic concepts, 217-219
familial adenomatous polyposis, 221-223
genetic testing for, 223-224
multiple endocrine neoplasia type 2, 220-221
retinoblastoma, 219-220
Hispanic children
migrants, listening to, about health, 137-147
see also Mexican-American children
Homeless children
in U.S. Census, 119
Hospitalization
of young children, intervention study of parents of, 4-13
factors influencing coping, 6
outcomes of, 5-6
recommendations for future studies, 10-11
review of prior studies on, 7-9
sources of stress, 4-5
Human Genome Project, 207-208
Human immunodeficiency virus (HIV)
stress responses of child care providers to children with, 356-363

Immigrants, from the former Soviet Union
child rearing practices of, 364-372
Infants
appraisal of health of, in Healthy People 2000, 47-48
explaining feeding style of low-income black women, 73-81
parenting of, during alcohol recovery, 82-88
Informed consent
in school-based research, problems with, 14-21
obtaining child assent for research, 99-104
International pediatric nursing
caregiver burden, concept analysis of, 398-407
child rearing in the New Independent States (former Soviet Union), 364-372
compliance of adolescents with diabetes in Japan, 260-267
ethics in pediatric nursing, 54-59
Jordanian male nursing students, perceptions about caring for children, 198-203
multidisciplinary teams in the United Kingdom, 131-134
nursing education in Istanbul, Turkey, 183-188
pain management practices in children after surgery, 334-340
Internet
and health education for children and families (Editorial), 61-62
Istanbul, Turkey
international neonatal education program for nurses in, 183-188

Jordan
current health status of children in, 199
male nursing students in, perceptions about caring for children, 198-203
gender issues, 201-202
sociocultural issues, 202
nursing education in, 199

Kearns-Sayre syndrome, 236-237

Lead
  parents' actions to reduce children's exposure to, 282-291
Leigh syndrome, 237-238
Linear scleroderma
  Neuman nursing perspective on, 168-174
    aspects of, 168-169
    case study, 169
    nursing care, 169-173
Low-income families
  explaining infant feeding style of low-income black women, 73-81

Male nurses, *see* Men, in nursing
Managed care
  Medicaid, for children with special health care needs, 63-72
Maternal role attainment
  impact of abuse on chronic depression in adolescent mothers, 378-387
Medicaid
  managed care of children with special health care needs under, 63-72
Men, in nursing
  male Jordanian nursing students, perceptions about caring for children, 198-203
Mental health
  child mental health policy, 115-118
    access to services, 117
    financing services for, 116-117
    parity in services for children, 116
Mental health care
  ethical voices of pediatric nurses in, 36-46
Mexican-American children
  with chronic conditions, parental encouragement, protection, and advocacy for, 89-98
Mitochondrial disease, 232-241
  clinical aspects, 235-236
  clinical synopsis of, 233
  mitochondrial versus nuclear genome, 232-235

  three cases of, 236-238
    Kearns-Sayre syndrome, 236-237
    Leigh syndrome, 237-238
    Wolfram syndrome, 238
Mothers
  adolescent, impact of physical or sexual abuse on chronic depression in, 378-387
  explaining infant feeding style of low-income black women, 73-81
Mothers (*Continued*)
  interactions with prematurely born children, and developmental problems, 157-167
  parenting an infant during alcohol recovery, 82-88
Multidisciplinary teams
  in the United Kingdom, 131-134
Multiple endocrine neoplasia, type 2
  genetic testing for, ethical and psychosocial implications, 220-221
Muscle strength measures
  and physical fitness in children, 153

Narrative pedagogy
  and grounding of values, for learning ethics in nursing and genetics, 226-231
Neonatal intensive care unit
  international education for nurses in Istanbul, Turkey, on, 183-188
Neuman system model
  applied to linear scleroderma, 168-174
New Independent States (former Soviet Union)
  child rearing in, 364-372
    historical issues affecting, 364-366
    implications for nurses, 368-371
    practices, 366-368
Nurses, pediatric
  in mental health, ethical voices of, 36-46
  opportunities for, caring for children and youth in out-of-home placements, 1-2 (Editorial)
Nursing, pediatric
  education
    in Istanbul, Turkey, 183-188
    pediatric sedation, in evidence-based practice, 127-130
  ethics in, international perspective, 54-59
Nutrition
  effect of television on children's, 275-276
  explaining infant feeding style of low-income black women, 73-81

Obesity, childhood
  nursing prevention and intervention approaches (Editorial), 135-136
Office for Protection from Research Risks
  gaining approval from for school-based research, 19
Out-of-home placements
  nursing care for children and youth in, 1-2 (Editorial)

Outcomes
of hospitalization for young children and their parents, 5-6

Pain management
in children after surgery, 334-340
Parent satisfaction survey
revision of, based on parents' perspective, 373-377
Parenting
of an infant during alcohol recovery, 82-88
Parents
effectiveness of actions by to reduce children's lead exposure, 282-291
of hospitalized young children, intervention studies with, 4-13
of Mexican-American children with chronic conditions, 89-98
revision of parent satisfaction survey based on parents' perspective, 373-377
see also Mothers
Parse's human becoming theory, 107-108
Patient education, *see* Education
Pediatric nurses, *see* Nurses, pediatric
Pediatric nursing, *see* Nursing, pediatric
Peer relationships
and adjustment to cystic fibrosis during adolescence, 175-182
Phenomenology
perspectives on children's voices, 23-24
Physical activity
measurement of in children, 149-152
diaries, 150
direct-observations measures, 151-152
investigator-administered measures, 151-152
monitoring devices for, 152
parent- or teacher-reported measures, 151
self-reported measures, 149-150
of our nation's children, 250-252
Physical environment
in parent satisfaction survey, 375
Physical fitness
measurement of in children, 152-154
body composition, 153
cardiorespiratory endurance measures, 153
flexibility measures, 153-154
muscle strength measures, 151
of our nation's children, 250-252
Pregnancy, teen
prevention of youth violence and, 3 (Letter)
Prematurely born children
developmental problems in, and interactions with mothers, 157-167
Protection
parental, for Mexican-American children with chronic conditions, 89-98

Research
genome, impact on children and their families, 207-211
practical issues in obtaining child assent for, 99-104
school-based, problems of consent and access, 14-21
Retinoblastoma
genetic testing for, ethical and psychosocial implications, 217-225
Risk-taking
effect of television show content on children's, 276-277
Rock concerts
dangers of (Editorial), 341-342

Safety
in parent satisfaction survey, 375
Satisfaction, patient/parent
revision of parent satisfaction survey, 373-377
School-aged children
as research subjects, problems with access and consent, 14-21
Hispanic migrants, perceptions about health, 137-147
Schools
conducting research in, problems of access and consent, 14-21
Office for the Protection from, Research Risks, 19
Scleroderma, *see* Linear scleroderma
Sedation, pediatric
in evidence-based practice, 127-130
Self-care practices
of middle adolescents, and sociocultural influences, 30-35
Services, health care
and system coordination (Editorial), 269-271
